Dear Hiring Manager,

I am writing to express my interest in joining your team. With more than 10 years of retail and customer service experience, alongside ongoing study in Information Technology at Deakin University, I offer practical problem-solving skills, clear communication and a willingness to learn.

In my role as a Level 3 Team Member at BWS, I regularly take responsibility for opening and closing the store, assisting customers, resolving complaints and managing stock. Working independently has strengthened my ability to prioritise tasks, take initiative and remain dependable when others rely on me. My previous roles at Kmart and Gig Power also gave me experience supporting busy teams, handling equipment and adapting to different working environments.

My university studies have developed my technical skills and ability to approach unfamiliar problems methodically. Through coursework and the Chameleon species database app capstone project, I have gained practical experience applying what I learn. I am comfortable working with technology and keen to develop the skills needed to contribute effectively in a new role.

I would bring a professional attitude, respect for colleagues and customers, and a commitment to completing work carefully and reliably. I am available around my university commitments, including evenings and weekends.

Thank you for considering my application. I would welcome the opportunity to discuss how my experience and skills could support your team.

Kind regards,

Patrick Coghlan
